Use of Proceeds	Fig's general working capital — we commit through the license agreement to provide the developer with a funding amount that correlates to the investment raised during the campaign

ADDITIONAL INFORMATION

The graph below shows the estimated lifetime distributions for a single Fig Game Share – Amico ($1000 price), at various levels of revenue received by Fig, assuming a specific breakdown of revenue from different sources related to the sale of Intellivision Amico.* The lifetime distributions will vary depending on the level of investment raised, because Fig's revenue share would be divided among the number of securities is outstanding. However, the more funds we raise, the more funds we can make available for development, which may translate into more consumer interest in the completed product. The graph assumes the Fig Funds amount is $7,500,000, although it could be between $3,000,000 and $15,000,000. If the proportion of each source of revenue to Fig from Intellivision Amico (Direct Hardware sales, Indirect Hardware Sales, and Game Sales) is different than listed above, the dividend payment to stockholders could be significantly higher or lower than presented.

Example Points	Direct Hardware Sales	Indirect Hardware Sales	Software Sales	Revenue to Fig	Est. Distribution per Share
1.	$ 7,352,941	$ 4,901,961	$ 12,254,902	$ 4,411,765	$ 500
2.	$ 14,705,882	$ 9,803,922	$ 24,509,804	$ 8,823,529	$ 1,000
3.	$ 37,500,000	$ 25,000,000	$ 62,500,000	$ 22,500,000	$ 2,550

* This graph above presents forward-looking statements that are subject to unknown risks and uncertainties. If any assumptions behind these estimates prove to be incorrect, or if any costs not accounted for prove to be material, then the point at which an investor would break even, and other points on this graph, could be substantially higher than estimated. Be cautious and do not to place undue emphasis on forward-looking statements in making your investment decisions.

Intellivision Reg A Investor Updates

7/2 Investor Update

Hi [First Name],

Our team is excited to have you on board! The campaign is just over a month old and we wanted to provide an update.

The Reg A qualification process is ongoing. The Form 1-A was submitted about one month ago, and we expect comments back from the SEC any day now. Once we receive comments we intend to make any necessary changes to the Form 1-A to make another public filing and to ask for qualification. As soon as the offering is qualified we will reach out to you in order to confirm your subscription and accept payment for your investment. Your position in line will not change and as of today the round still has room left before maxing out.

If you are looking to increase your investment commitment, please respond to this email with the total amount you would like to invest and our team will make the adjustment and then send you an email confirmation. Also, be on the lookout for two more Amico video updates from Tommy Tallarico in July.

We will be in touch soon with more updates. Have a great holiday weekend!

Thank you,

7/28 Investor Update

Hi [First Name],

It's been 2 months since Palm Beach Ventures made their announcement. This part of the campaign is about to end so we wanted to reach back out with an update on the progress.

So far nearly $6,000,000 has been committed and we are well on our way to a successful campaign. The Reg A qualification process is in its last stages and we expect to announce qualification results early August. Just after that we will reach out and process all Reg A investment payments. On August 16th Palm Beach Ventures exclusive will end and on August 17th the campaign will launch on Republic's platform and will be open to their 750,000 investors. The final closing date is yet to be determined but we do expect it to be shortly after launching on Republic.

If you are looking to increase your investment reservation before the Palm Beach Ventures campaign expires, please respond to this email with the total amount you would like to invest and our team will make the adjustment and then send you an email confirmation. Also, be on the lookout for two more Amico video updates from Tommy Tallarico in the coming weeks and one that has Tommy and William Mikula playing Amico together in person!

Designed For Simplicity

When designing Amico, we had a vision — make gaming accessible again. Our team has packed an incredible number of features into a simple and affordable package. Luckily, we didn't have to start from scratch — the original Intellivision system had many great features that served as inspiration for Amico. Modern technology, updated ergonomics, and a fresh personality make for an entertainment system like no other.

Feature-rich Controllers

The Amico controller is designed for functionality and simplicity — with a familiar touchscreen, disc, and motion controls, anyone can join in on the fun.

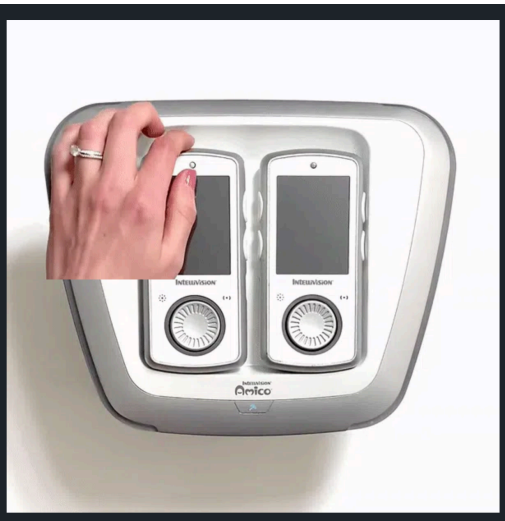

In these MEET AMICO videos we give first looks at *Missile Command* and *SideSwipers* on Amico, but more importantly, we demonstrate our controllers operating with the hardware via Bluetooth along with mobile devices connected via Wi-Fi (running off our free Amico controller app). We also showcase the uniqueness of playing games with our controllers, creative ideas behind couch co-op game design and some of the differences and advantages to what we've built.

Wireless Automatic Charging

Simply place the controllers in the console and Amico takes care of the charging. This feature also doubles as an easy way of storing the controllers to keep things tidy.

Immersive LED Lighting

Amico uses unique lighting that not only makes for a fun and memorable gaming experience, but also helps guide players in an interactive way.

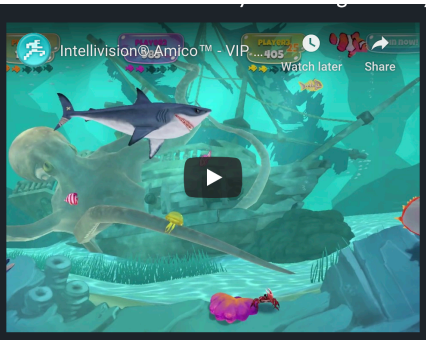

Fun For Everyone

Premium, family-friendly games for all skill levels

- Amico comes with six premium, pre-loaded games, with additional games typically ranging from $2.99 - $9.99
- No bad language, graphic violence/blood or sexual content — every game on Amico is rated E for Everyone or E10+
- Gameplay adapts to your skill level
- No ads, downloadable content, loot boxes, or in-game purchases

Extensive Game Library

From sports & recreation, educational & brain games, to party games and retro classics — there's truly something for everyone

Your favorite Intellivision games return exclusively on Amico completely and authentically re-imagined to bring the fun and simplicity of classic gaming to modern day — new graphics, sound, couch multiplayer and entirely new ways to play!

Night Stalker Re-imagined

Our Amico retro re-imagined version of our very own *Night Stalker* is being done by the incredibly talented and award-winning developers at Other Ocean & Digital Eclipse and will personally be programmed by retro legend and historian Mike Mika. In addition to single player mode, you can also play with up to 4 players including co-op (as seen in this video) or versus modes.

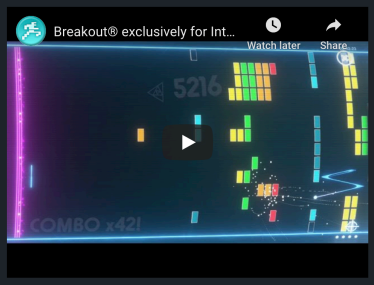

We love classic games just like you and when a game is great, it's always great no matter who created it! That's why Intellivision is excited to re-imagine 12 of Atari®'s all-time favorites playable ***only on*** Amico.

Breakout Re-imagined

First released over 43 years ago in 1976, Atari®'s *Breakout®* arcade game was designed by Atari® co-founder Nolan Bushnell, and engineered by none other than Steve Jobs and Steve Wozniak. We are proud to show off our exclusive version, only available on the Intellivision Amico console .

Imagic became one of the first third party developers and publishers of home console games. Formed by former members of Atari and Mattel Electronics, Imagic quickly emerged as a top game company with multi-platform hits like *Demon Attack* and *Atlantis* and Intellivision exclusives like *Microsurgeon*, *Beauty & The Beast*, *Dracula* and *Safecracker*. In 1986, Imagic ceased operations as a casualty from the game market crash and players transitioning to new platforms. Imagic games have been highly coveted by fans for release on new platforms but remained untouched and out of reach - **until now**. We are thrilled to bring gamers all over the world entirely new versions of Imagic's back catalog remade and re-imagined exclusively on Amico.

Earthworm Jim is Back!

Exclusively on Amico

Whoa, Nelly! In celebration of the 25th anniversary of *Earthworm Jim*, Intellivision Entertainment is proud to reunite the original *Earthworm Jim* team to create a brand new video game adventure exclusively for Intellivision Amico. Voted ***"GAME OF THE YEAR"*** in 1994, the last time the *Earthworm Jim* team worked together was in the follow up award-winning hit sensation *Earthworm Jim 2* (released in 1995). Ten of the original team members, including Doug TenNapel, David Perry, Tommy Tallarico, Nick Bruty, Mike Dietz, Tom Tanaka and Joey Kuras are taking part in bringing back the uniqueness and humor of the *Earthworm Jim* series. We couldn't think of anything more ***Groovy!***

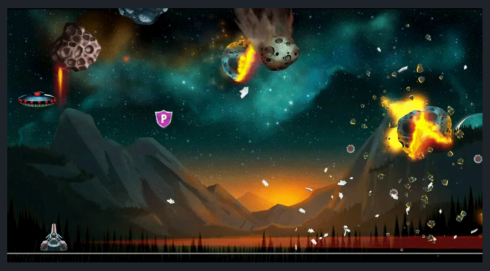

Pack-In Games

Every Intellivision Amico console includes six games already installed for immediate fun right out of the box. Fans of the original Intellivision will immediately recognize three of the console's classics re-imagined exclusively for Amico. Rounding out the selections are three brand new games designed to showcase the unique gameplay and group play that only Amico can offer!

Astrosmash

Designed originally by John Sohl and released in 1981, the original *Astrosmash* game on Intellivision was one of the most popular and biggest selling games for the original system. *Astrosmash* went on to become a Top 5 game selling over 1 million units on the console. The game's popularity also led it to being ported to the Atari 2600 under the name *Astroblast*. The re-imagined version for the Amico brings back all the arcade space shooting fun and is a total blast to play cooperatively or in versus mode!

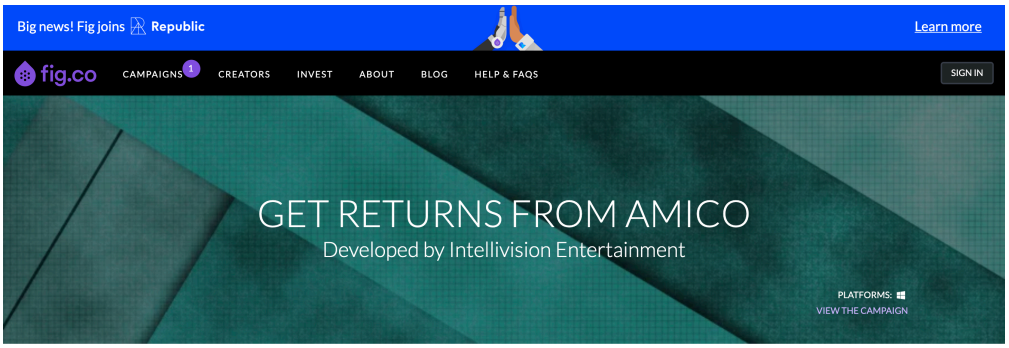

Shark! Shark!

Designed and programmed by one of the first female game developers in video game history, *Shark! Shark!* garnered critical acclaim from press and fans alike and went on to become one of the best reviewed and most cherished Intellivision games. Inspired by the Chinese proverb "big fish eat little fish," up to four players can play in the new Amico version while enjoying the serenity and mysteries of the ocean. Make an even bigger splash with co-op and versus modes that friends and family can play together. Just watch out for that hungry shark and other threats lurking under the sea!

ADDITIONAL INFORMATION

The graph below shows the estimated lifetime distributions for a single Fig Game Share – Amico ($1000 price), at various levels of revenue received by Fig, assuming a specific breakdown of revenue from different sources related to the sale of Intellivision Amico.* The lifetime distributions will vary depending on the level of investment raised, because Fig's revenue share would be divided among the number of securities is outstanding. However, the more funds we raise, the more funds we can make available for development, which may translate into more consumer interest in the completed product. The graph assumes the Fig Funds amount is $7,500,000, although it could be between $3,000,000 and $15,000,000. If the proportion of each source of revenue to Fig from Intellivision Amico (Direct Hardware sales, Indirect Hardware Sales, and Game Sales) is different than listed above, the dividend payment to stockholders could be significantly higher or lower than presented.

Example Points

	Direct Hardware Sales	Indirect Hardware Sales	Software Sales	Revenue to Fig	Est. Distribution per Share
1.	$ 7,352,941	$ 4,901,961	$ 12,254,902	$ 4,411,765	$ 125
2.	$ 14,705,882	$ 9,803,922	$ 24,509,804	$ 8,823,529	$ 250
3.	$ 37,500,000	$ 25,000,000	$ 62,500,000	$ 22,500,000	$ 638

* This graph above presents forward-looking statements that are subject to unknown risks and uncertainties. If any assumptions behind these estimates prove to be incorrect, or if any costs not accounted for prove to be material, then the point at which an investor would break even, and other points on this graph, could be substantially higher than estimated. In addition to a highly anticipated remake, you can also play with our exciting new Versus mode, which will be available at launch.

We have some great new games and titles we're excited to give you. It's always great to remember who created the classics. Intellivision Amico is the first system to ever offer all three Intellivision Reunion titles **only on** Amico.

BREAKOUT RE-IMAGINED

First released over 40 years ago in 1976, Atari®'s Breakout® arcade game was designed by Steve Wozniak & Nolan Bushnell, and programmed by none other than Steve Wozniak and Steve Mayer. We are proud to announce that Breakout will be a launch title for Intellivision Amico.

Stage. Sid was one of the first third-party developers and publishers of home console games. Activision was founded in October 1979 by four ex-Atari employees who set out to establish a game company with real "publish-to-the-fans" status like the Rock Music and Movie Studios. Activision's first games were for the Atari VCS (later renamed the Atari 2600), and included Dragster, Fishing Derby, Boxing, Tennis, Space Shuttle: A Journey into Adventure, Skiing, Barnstorming, Grand Prix, Checkers and Video Pinball. In 1988, Image Loaded went on a spree of acquisitions and mergers, including Mediagenic, Gametek, Accolade, Sierra On-Line, and Vivendi Universal Games, but by the turn of the millennium, a majority of the company's assets were sold off piecemeal or went bankrupt.

Accredited Investors will be required to provide supporting documentation evidencing their accredited status. All investors using the Site must acknowledge and accept the high risks associated with investing in the Securities. These risks include holding your investment for periods of months or years with limited or no ability to resell and losing your entire investment; you must have the ability to bear a total loss of your investment without a change in your lifestyle. The Site may contain "forward looking statements" which are not guaranteed. Potential investors should read all of the investment documents that are provided to them. You are strongly advised to consult your legal, tax and financial advisors before investing.

With regard to communications by an issuer on the Site to gauge interest in a potential Securities offering pursuant to the Regulation A exemption from the registration requirements of the Securities Act, including opportunities to "reserve" Securities as indications of interest in the potential offering, please note (i) that no money or other consideration is being solicited thereby, and if sent in response, will not be accepted, (ii) no sales will be made or commitments to purchase accepted until the offering statement for the potential offering is qualified by the U.S. Securities and Exchange Commission, (iii) any such offer may be withdrawn or revoked, without obligation or commitment of any kind, at any time before notice of its acceptance is given after the qualification date, and (iv) an indication of interest is non-binding and involves no obligation or commitment of any kind.
